“Thank you for your emails regarding timber harvesting at coupe Spyglass, related to your Forest Report.

Timber harvesting operations in state forest is undertaken in accordance with the legislative requirements.

Our interim assessment indicates there is no basis for ceasing timber harvesting. Sufficient habitat is being retained at Spyglass coupe that recognises the presence of the greater gliders and areas of protection are being retained.”

-- excerpt from email from DEWLP

Critically endangered Tree
Geebung, *Persoonia arborea*

Critically endangered Leadbeater's Possum

150 m

overzoom

Endangered *Grevillea repens*

Critically endangered *Pomaderris
vaccinifolia*

Endangered *Goodia pubescens*
