

Victorian government's consultation on emissions targets - Questions

The Independent Expert Panel's recommended targets

Question 1:

The Independent Expert Panel recommends Victoria set greenhouse gas emissions reduction targets of:

- 32-39% below 2005 levels in 2025 and
- 45-60% below 2005 levels in 2030.

1a: Do you support these targets recommended by the Panel?

1b: Why/why not?

2: Are these the key issues influencing what the right targets are for Victoria? Are there other issues that should be considered?

3: Do you agree with the Panel's indicative trajectories to 2050?

3a:

3b: Why/why not?

Reducing Greenhouse Gas Emissions in Victoria

4: Are there other key greenhouse gas emissions reduction opportunities beyond those the Panel identified?

5a: Across the Victorian economy, which activities do you think the Victorian government should prioritise in reducing Victoria's greenhouse gas emissions?

5b: What policies or programs are needed to drive these emissions reductions?

6: Are there any emissions reduction opportunities identified by the Panel that you would not support Victorian government action on? Why not?

Benefits of reducing greenhouse gas emissions in Victoria

7: In addition to those identified by the Independent Expert Panel (see Chapter 7 of the Panel's report), are there other key benefits of reducing greenhouse gas emissions?

8: Of all the benefits of reducing emissions, which are the most important and why?

Barriers to reducing greenhouse gas emissions in Victoria

9: From your experience, are there any barriers to reducing Victoria's greenhouse gas emissions that the Independent Expert Panel didn't identify?

10: Of all the barriers, which are the most important to address and why?

11: How can the key barriers you identified in Question 10 be overcome?

Impacts of reducing greenhouse gas emissions in Victoria

12: In addition to those identified by the Independent Expert Panel (see Chapter 7 of the Panel's report), are there other impacts of reducing greenhouse gas emissions?

13: Of all the impacts, which are the most important to address and why?

14: How can these impacts be addressed?

Other Comments

15: Do you have other comments about action on climate change in Victoria?
