

Kooyong results for Australia's biggest climate poll

In 2021 ACF released results of Australia's biggest climate poll, which are currently summarised at a national level in [this pdf](#).

Australia's biggest climate poll

The biggest and most in-depth survey ever conducted of Australians' opinions on climate change has found a majority of voters in every one of the nation's 151 federal electorates believes the Morrison government should be doing more to tackle climate change.
